JENY AZRAD

DATA ANALYST | JUNIOR DATA ANALYST | BI ANALYST

Israel | 052-5269455 | evgenia2006@gmail.com

PROFESSIONAL SUMMARY

Data Analyst with a strong technology background and 20+ years of experience in high-tech and digital products. Completed the John Bryce Data Analyst course with honors, developing hands-on skills in SQL, Python, Pandas, Excel, Power BI and DAX. Experienced in data cleaning, data transformation, exploratory data analysis, KPI analysis, dashboard development and data visualization. Strong UX/UI background with a particular strength in dashboard design, Figma and presenting complex information in a clear, intuitive and user-friendly way. Brings analytical thinking, technical knowledge, visual communication and cross-functional collaboration.

CORE DATA ANALYTICS SKILLS

Data Analysis: SQL, Python, Pandas, Excel, Exploratory Data Analysis (EDA), Data Cleaning
Business Intelligence: Power BI, DAX, KPI Analysis, Business Reporting, Data Visualization
Data Transformation: Power Query, Data Preparation, Data Modeling, Calculated Measures
Dashboard Development: Interactive Dashboards, KPI Dashboards, Data Storytelling, Dashboard Design
Visualization & UX: Figma, UX/UI Design, Information Design, User-Centered Design

DATA ANALYTICS PROJECTS

Amazon E-Commerce Data Analysis | Power BI

- Developed an interactive Power BI dashboard analyzing sales, customers, products, discounts, ratings, returns and delivery performance.
- Performed data transformation and preparation using Power Query and created a relational data model for analysis.
- Created DAX measures for revenue, cost, profit, profit margin, customer metrics, discount analysis, return rate and delivery KPIs.
- Designed dashboard pages focused on business performance, customers, products and operational insights.
- Applied UX/UI and Figma principles to create clear, intuitive dashboard layouts.

Employee Attrition Analysis | Python / Pandas

- Performed exploratory data analysis using Python and Pandas to identify patterns related to employee attrition.
- Analyzed attrition by department, age group, burnout score, overtime hours, engagement score and work mode.
- Cleaned and prepared data, handled missing values, created derived age groups and identified high-risk employee segments.
- Used groupby, pivot tables, crosstab and statistical analysis to compare employee groups and support data-driven conclusions.

PROFESSIONAL EXPERIENCE

Yad2, Israel | 2004–2025

Frontend Developer | 2018–2025

- Developed responsive web applications using HTML5, SCSS, JavaScript, React and Vue.
- Worked with APIs, reusable components, application state and modern development tools.
- Collaborated with product managers, designers and developers to deliver user-centered digital products.
- Applied analytical and problem-solving skills to investigate issues, improve user experiences and support product requirements.
- Used Git, Jira, Tailwind, Cursor AI and Postman; basic knowledge of Next.js and Node.js.

UX/UI Designer | 2004–2018

- Designed user experiences and interfaces for web and mobile products.
- Created wireframes, prototypes and information structures with a strong focus on usability and clear presentation of information.
- Worked closely with developers and product teams to translate business and user requirements into practical solutions.
- Performed visual and usability reviews and ensured consistent implementation of design requirements.
- Tools included Figma, Photoshop, Axure and Flash.

Founding Team Member

- Contributed to the establishment and growth of Yad2, one of Israel's leading online platforms.

EDUCATION & PROFESSIONAL TRAINING

John Bryce – Data Analyst Course | Completed with Honors
SQL, Python, Pandas, Excel, Power BI, DAX, Data Visualization, Dashboard Development

Technion – Israel Institute of Technology
Practical Engineering Diploma – Interactive Communication, Multimedia & Internet | 2001–2003

ADDITIONAL TECHNICAL SKILLS

Frontend Development: HTML5, CSS/SCSS, JavaScript, React, Vue, Node.js (basic)
Tools: Git, Jira, Tailwind, Cursor AI, Postman
Design: Figma, UX/UI Design, Prototyping, Information Design
